

Short Course in RF Scanning

Course Overview

This Short Course covers the use of RF Scanners, picking and processing.

These nationally accredited units of competency will set you on the path to a career in one of Australia's fastest growing sectors: Warehousing, Supply Chain Management, Distribution and Logistics, Package delivery and Courier Services.

Entry requirements

There are no formal entry requirements for this course, however students are expected to have or be able to achieve written and spoken English skills to the certificate level of the course, or the ability to develop these skills whilst in training to meet the requirements of the qualification. To allow our trainers to support your learning, students will need to complete a student profile, including language, literacy and numeracy indicators before their enrolment application is accepted.

Delivery Method and Course Duration

This short course is available through Face to Face classroom learning environment. The total duration of this short course will be 25 hours and will take the following format:

– 1 week full-time

5 days (9:00am – 3:00pm each day, additional support and training times are available for students if required).

To ensure all students get the opportunity to gain a competent outcome, where necessary there is an additional session of supported learning available to all students.

Work experience will be offered to learners and agreements set in place for the learner and organisation on a case-by-case requirements. Noncompulsory practical 16 hours will also be offered to learners to practice what they have learnt in class.

AQF Certification Outcome

Students who successfully complete all requirements TLIE1003 Participate in basic workplace communication - TLIK2010 Use info technology devices in the workplace - TLIA0022 Pick and process orders will be issued a Statement of Attainment by Max Solutions.

Recognition of Prior Learning (RPL) and Credit Transfers (CT)

Recognition of prior learning (RPL) is a process that assesses a student's competency – acquired through formal and informal learning – to determine if students meet the requirements for a unit of study. Students with previous skills, knowledge or experience are entitled to apply for RPL for a full qualification or individual units of competency. Students will be required to produce evidence and undertake assessment as part of the RPL process.

If students have previously completed a unit/s of competency and can provide valid evidence of AQF certification (issued by an RTO), they are eligible to apply for a credit transfer and would not be required to undertake further study for the unit.

Unique Student Identifier

It is mandatory for all students undertaking Nationally Recognised Training in Australia to have a USI, Unique Student Identifier.

Students will need their USI to apply to enrol for training. Visit www.usi.gov.au for more information.

Additional Pathways

Students may wish to go on to complete a further skillset or a full qualification such as Certificate I in Logistics, Course in Transport and Logistics Employment Pathway, Certificate I in Warehousing Operations and Certificate I and II in Supply Chain Operations.

Study with Max Solutions RTO

We deliver training across a range of levels, with a focus on understanding each student's goals and helping them choose the right course to get there.
